## Written-Out Step by Step Drawing Instructions

**(Step 1)** Draw a circle. Use lighter lines than me – I only used dark lines to allow you to see what I am doing.

**(Step 2)** Draw petals across from each other.

**(Steps 3 – 4)** Space out the petals so they are about the same distance apart as the previous petals.

**(Step 5)** Now start overlapping petals.

**(Step 6)** Erase some lines that you no longer need.

**(Step 7)** Overlap some more petals.

**(Step 8)** Erase some more lines.

**(Step 9)** Finish up the petals.

**(Step 10)** Add basic flat color of white and yellowish-tan.

**(Step 11)** Draw a brown circle in the yellow part of the flower.

**(Steps 12-17)** Now spiral circles around the first circle that you drew. As the circles get closer to the center, they get smaller and lighter in color.

**(Step 18)** Draw gray lines in each white petal.

**(Step 19)** Add shadows...the further back the petal, the darker shadows there will be. You can white to the center of each tiny yellow circle.
