

Science Activities

Choose **one** to complete (or complete them all if you wish!)

A - Label each item as either a solid, liquid or gas. You can do this in your copy by copying out the picture or by listing the items and writing the correct label beside them.

► Label each item as a solid, a liquid or a gas.

helmet

sweat

breath

teeth

outside of bottle

water inside bottle

bone

muscle

outside of ball

inside of ball

You are nearly 70% water! The rest of your body is made of gases such as oxygen and solids such as fats.

B

Apply Concepts

2 Make a menu for a meal. The meal will have 3 solids and 3 liquids.

Solids	Liquids
_____	_____
_____	_____
_____	_____

C

Make 'Sunshine on a Stick'! Put an ice cube tray filled with orange juice into the freezer. When partly frozen, place a toothpick in each section. When the juice is a solid, you can eat it off the toothpicks!

D - Rule your copy page into 3 columns. Label them Solids, Liquids and Gases. Sort the words below into the correct column.

milk	crisps	air	water	book
oxygen	apples	ice	cup	carbon dioxide
helium	biscuit	lemonade	fruit juice
